About Concrete Coatings, Inc.

Headquartered in Layton, UT, Concrete Coatings, Inc. has been manufacturing high-quality concrete restorative and decorative products since 1996. It has distributors and dealers across the United States and several countries.

In today’s world, where consumers seek the best, it's not enough to be a skilled contractor. Your talents and service require the best: the best products and the best support. Our field-experienced technical support and distributor services are second to none. We offer training, demonstrations and service, so you can use our products with confidence.
SuperSeal™

SuperSeal™ 2000 Solvent-Based 600, 400, 350 and 100 VOC
An aromatic sealer that can be applied to almost any surface: concrete, tile, cementitious overlays and much more. Available in low VOC solutions as well. Not for use in California.
Available in Gloss and Matte finishes in gallon, 5-gallon and 55-gallon sizes.
Coverage: 150-200 ft²/gal
Product Codes:

SuperSeal™ 20WB Water-Based Low VOC
A water-based acrylic sealer for everyday use. Should be used when a solvent-based product cannot due to safety or flammability concerns. May be used as a primer for SuperGlaze™ WBU
Available in a Satin finish in gallon, 5-gallon and 55-gallon sizes.
Coverage: 300-400 ft²/gal
Product Codes:
S-20WB-1, S-20WB-5, S-20WB-55

PS-18™ Solvent-Based 600, 400, 350 and 100 VOC
PS-18™ is a non-yellowing, solvent-based sealer that aids in the curing process of freshly placed concrete. Unlike traditional curing and sealing agents, which are meant as sacrificial coats and must be removed before application of a finish sealer, PS-18™ is fully compatible with SuperSeal™ 2000 and Gem-Kote™ sealers.
Available in Gloss and Matte finishes in gallon, 5-gallon and 55-gallon sizes.
Coverage: 150-200 ft²/gal
Product Codes:

GemKote™

GemKote™ 400, 350 and 100 Solvent-Based 400, 350 and 100 VOC
Made with the same resins as SuperSeal™ 2000, but formulated to meet VOC requirements in specific areas of the country. For use primarily in California.
Available in Gloss and Matte finishes in gallon, 5-gallon and 55-gallon sizes.
Coverage: 150-200 ft²/gal
Product Codes:
S-400-1, S-350-1, S-100-1, S-400-5, S-350-5, S-100-5, S-400-55, S-350-55, S-100-55
Other Sealers

### Water-Based Sealers and Topcoats

**SuperGlaze™ WBU Water-Based Urethane**

A single- or dual-component water-based urethane for commercial or residential application. Low VOC content and quick drying. **NOT SUITABLE FOR VEHICULAR TRAFFIC.** Use in conjunction with Q43 for added durability and resistance.

Available in a Gloss finish in gallon, 5-gallon and 55-gallon sizes.

*Coverage: 300-400ft²/gal*

**Product Codes:**

SG-WBU-1, SG-WBU-5, SG-WBU-55

---

**DuraWax™ Acrylic Floor Wax**

UV-stable acrylic wax to be used as a sacrificial coat over any sealed interior surface. Apply 100 or more times before needing to strip. Mimics the sheen over which it is applied. Available in gallon and 5-gallon sizes.

*Coverage: 1,000-3,000ft²/gal*

**Product Codes:**

S-DWAX-1, S-DWAX-5, S-DWAX-55

---

**Dri-Look™ Masonry Sealer**

Designed for brick and manufactured stone to provide an invisible barrier against water and the elements, yet leave the natural look of these surfaces with no visible sheen. For vertical surfaces only.

Available in a Natural finish in gallon, 5-gallon and 55-gallon sizes.

*Coverage: 600ft²/gal (sprayed)*

**Product Codes:**

DRILK-1, DRILK-5, DRILK-55

---

### Tile and Grout Sealers

**TileArmor™ Tile and Grout Sealers**

Penetrating sealers formulated to provide excellent stain protection. The enhancer is solvent-based and deepens the natural colors of the stone and tile. Tile armor WB is a completely natural finish. Both products may be used as a pre-grouting sealer over clean tile surfaces before grouting. Sold in cases.

*Coverage: Varies. Check specific product data for more detailed coverage.*

**Product Codes:**

Solvent-Based: TILEENHANCER-P, TILEENHANCER-Q, TILEENHANCER-G

Water-Based: TILEARMOR-P, TILEARMOR-Q, TILEARMOR-G
Flooring Epoxies

**Shield™ 50**
This 100% solids and 100% cross-linked epoxy is great as a primer for UV Shield™ and works well as a stand-alone product. Available in straw or pigmented in 1-Gal, 3-Gal, 5-Gal and 15-Gal kits.
Coverage: 150-200ft²/gal

**Product Codes:**

**UV Shield™**
Use this 100% solids, 100% cross-linked UV resistant epoxy as a topcoat over Shield™ 50. Also works as an excellent topcoat over almost any interior project. Available clear or pigmented in 1-Gal, 3-Gal, 5-Gal and 15-Gal kits.
Coverage: 100-200ft²/gal

**Product Codes:**

### Pigment Colors
- Concrete Gray CG
- Medium Gray MG
- Dark Gray DG
- Tan TN
- Sand Beige SB

### Acrylic Flakes

### Colored Quartz
- Red Blend EP-QTZ150
- Gray Blend EP-QTZ250
- Cream Blend EP-QTZ350
- Mocha Blend EP-QTZ450
- Natural Blue Blend EP-QTZ550
- Brown Blend EP-QTZ650
Overlay Grouts and Mortars

G-100 Professional Series Grout™

Our standard general purpose overlay mix. Combine with DuraSet™ 1000 and/or 1001 for use in our Spray-Tek™ acrylic overlay. Can also be troweled. Recommended for applications 1/4” or less. Available in 50lb bags. 60 bags per pallet. Coverage: 100-200ft²/bag Product Code: G-100

Fast-Patch™ High-Density Rapid-Setting Repair Mortar

A fast-setting repair mortar that can be applied from a feathered edge to 12” or more. Cures to approx. 7,000psi. Great for repairing small chips to large holes. Available in 50lb bags. 60 bags per pallet. Coverage: 25ft²/bag at 1/4” Product Code: FP-1060

Stamp-Tek™ Stampable Overlay

Stamp-Tek™ overlay is an add-water-only product designed to accept ¼”, ½” and ¾” impressions. Fiber has been added for durability. DuraSet™ VAE is required as a primer. Available in Gray 50lb bags. 60 bags per pallet. Coverage: 100-200ft²/bag Product Code: G-100

Broom-Tek™ Broomable Overlay

Broom-Tek™ is specifically designed as an overlayment for any concrete surface, providing an economical way to resurface and beautify old, chipped, spalled, or scaled concrete. Available in 50lb kits. Kit includes 40lb bag of Broom-Tek Grout mix and 1 gallon DuraSet 2000. Coverage: About 100ft²/kit Product Code: BT-KIT

Microtoppings

Micro-Tek™ RG Rough Grade Microtopping

This just-add-water mix is designed as a primer for Micro-Tek™ SG. Must be applied with a squeegee or trowel. May be used to fill holes up to ¼” thick. For interior or exterior use. Available in Natural 50lb bags. 60 bags per pallet. Coverage: 200ft²/bag. Product Code: MT-RG-N

Micro-Tek™ SG Smooth Grade Microtopping

Micro-Tek™ SG is a just-add-water mix designed to be applied over Micro-Tek RG. Available in white or gray, this overlay accepts stains and dyes and mimics a tightly power-troweled surface. Apply with a squeegee or trowel. Recommended interior use only due to slip hazard. Available in Gray or White 40lb bags. 60 bags per pallet. Coverage: 200ft²/bag for first coat, 400-600ft²/bag subsequent coats. Product Codes: MT-SG-W, MT-SG-N
DuraSet™ 1000 and 1001 Acrylic Modifier for G-100™
Premixed polymer designed to be used exclusively with G-100™. DuraSet™ 1001 may be mixed in at any ratio to speed up dry time. Consider using FastSet when temperatures are at or below 65°F.
Available in 2-gallon, 5-gallon and 55-gallon sizes.
Coverage: About 80 ft²/gal
Product Codes:
DuraSet 1000: M-1000-2, M-1000-5, M-1000-55
DuraSet 1001 FastSet: M-1001-2, M-1001-5, M-1001-55

DuraSet™ 2000 Exclusively for Broom-Tek™
Premixed polymer used exclusively with Broom-Tek™. Included in the Broom-Tek™ Kit or sold separately for large jobs.
Coverage: About 100 ft²/gal
Product Code:
M-2000-1

Binders

DuraSet™ VAE Primer for Stamp-Tek™
Primer formulated exclusively for use with Stamp-Tek™ Stampable Overlay. Apply to concrete and allow to dry before placing Stamp-Tek™ Stampable Overlay. Will only re-emulsify once. If DuraSet™ VAE gets wet before placement of Stamp-Tek™ Stampable Overlay, DuraSet™ VAE must be reapplied.
Available in gallon, 5-gallon and 55-gallon sizes.
Coverage: 200-300 ft²/gal
Product Code:
M-VAE-1, M-VAE-5, M-VAE-55

DuraSeam™ Elastomeric Membrane
An elastomeric membrane to be used on countertop seams prior to applying the GraniteLook™ system. May also be used after repairing a crack in concrete to discourage telescoping.
Available in gallon and 5-gallon sizes.
Coverage: Varies based on application
Product Codes:
DS-1, DS-5

### 28 Standard Colors

C-Series™ Liquid Colorants come in 28 standard colors, or can be custom colored for an additional charge.

They are formulated to work with all Concrete Coatings cementitious overlays.

Colors not shown are Macadamia, Black, White, and Green.

This color chart is a representation only and does not guarantee that the final color will be an exact match. The colors produced will rely heavily on skill, practice, and experimentation. Application methods and age of the concrete will result in different tones. Even in a controlled environment, cements, aggregates, water content and curing methods will contribute to different results. Concrete Coatings Inc. recommends that any changes be made to the acrylic cement overlay prior to sealing.
VIVID™ Acid Stains

- Ebony (CS-600)
- Walnut (CS-1000)
- Mission Brown (CS-700)
- Coffee (CS-300)
- Mahogany (CS-500)
- Weathered Terracotta (CS-1100)
- Caramel (CS-400)
- Amber (CS-800)
- Olive (CS-900)
- Jade (CS-100)
- Turquoise (CS-200)

QuickDye™

- Ebony (QD-600)
- Walnut (QD-1000)
- Mission Brown (QD-700)
- Sepia (QD-2500)
- Terracotta (QD-2700)
- Maroon (QD-2000)
- Chestnut (QD-1400)
- Coffee (QD-300)
- Mahogany (QD-500)
- Weathered Terracotta (QD-1100)
- Burnt Sienna (QD-1200)
- Gold (QD-1800)
- Sand (QD-2400)
- Chocolate (QD-1500)
- Caramel (QD-400)
- Amber (QD-800)
- Olive (QD-900)
- Saddle Brown (QD-2300)
- Eggplant (QD-1600)
- Black (QD-1000)
- Midnight Black (QD-2100)
- Green (QD-1900)
- Jade (QD-100)
- Turquoise (QD-200)
- Blue (QD-3000)
- Slate Blue (QD-2600)
- Forest Green (QD-1700)
- Pine Green (QD-2200)

*These color charts are a representation only and do not guarantee that the final color will be an exact match or even reasonably close to the sample. The colors produced will also depend on skill, practice, and experimentation. Each concrete slab will react differently. Application methods and age of the concrete will react in different ways, so testing and experimenting is recommended. Even in a controlled environment, conditions, aggregate, water content, and concrete curing methods will contribute to different results. Test sections should be done to verify suitability and appearance prior to application. When using multiple batches of stain or dye of the same color, mix batches of stain or dye together.*
Floor Prep

Prep and Clean

**EZ-Prep™ Etch, Clean and Degrease**
Use to etch, clean, degrease and remove rust from concrete. Use 10:1 prior to acid staining. Use 5:1 prior to resealing and use undiluted to etch concrete prior to placing an overlay or to remove heavy stains. Light, clean odor; non-reactive to skin and steel.
Available in a gallon size.
Coverage: Varies based on application
Product Code: SP-EZP-1

**EZ-Clean™ Neutralize and Clean**
Use as a neutralizer and light cleaner. Use after staining to neutralize and remove residue. Use any other time a light cleaner is needed. Available in concentrate and ready-to-use formulas.
Available in Ready-to-Use Gallon and Concentrate gallon sizes.
Coverage: Varies based on application
Product Codes:
Ready-to-Use: SP-EZR-1
Concentrate: SP-EZC-1

Clean and Repair

**Efflorescence Remover Concrete Cleaner**
Efflorescence Remover is a safer product for use in cleaning concrete surfaces than muriatic acid. It is perfect for the removal of excess antique release or the removal of efflorescence.
Available in gallon and 5-gallon sizes.
Coverage: 100-400 ft²/gal
Product Codes: EC-1, EC-5

**CR-204™ Epoxy Crack Repair**
A user-friendly, high-strength epoxy designed specifically for small- to medium-sized cracks. Its medium viscosity, moisture insensitivity and low modulus provides an excellent adhesion to the walls of voids.
Available in a gallon kit.
Coverage: Varies. Check specific product data for more detailed coverage.
Product Code: CR-204-G
Additional Products

GraniteLook™ Faux Granite Look
Available in a kit that includes material to complete a 60ft² countertop or as a standalone liquid to mix with our C-Series™ liquid colorants, this system may be applied over wood and faux finished to look like granite for interior countertops or over concrete for flooring or exterior projects. Sealer is not included. A high-quality topical sealer like UV Shield™ is recommended. *Coverage: About 60ft²/kit*

*Product Codes:*
GraniteLook Kit: GL_KIT
GraniteLook: GL-1

Stamp-Tek™ Liquid Release
Solvent-based release designed for use with decorative concrete stamps. Scented like bubblegum, Stamp-Tek™ Liquid Release is a classic. It’s a great bond-breaker that evaporates quickly.

*Available in gallon, 5-gallon and 55-gallon sizes.*

*Coverage: 150-200ft²/gal*

*Product Codes:*
LR-1, LR-5, LR-55

SlipGrip™ Slip Resistant Additive
This additive is designed to be added to our solvent-based sealers only. Add this to one or all coats of sealer depending on the desired level of traction control.

*Available in 1-pound containers. Add 1 pound per 5-gallon pail of sealer.*

*Coverage: 150-200ft²/gal*

*Product Code:*
SLIPGRIP

Pattern Tape

Pattern Tape Filament Tape
Specially-designed tape to be used primarily with the Spray-Tek™ and Micro-Tek™ systems. Use this tape to lay out any pattern you desire. All rolls are 60 yards long and come in widths of ⅛”, ⅜”, ⅝” and ¾”.

*Product Codes:*
Unmarked: T-P14, T-P38, T-P12, T-P34
Pre-marked: T-PM12

Tools and Samples

Power and Hand Tools
We provide a variety of both power tools and hand tools for your convenience. For an updated list of all tools available, please contact your sales representative or consult your most recent pricing list.

Preval and Re-Grip Products
We are a master distributor of both Preval and Re-Grip Products. Contact your sales representative for a complete list of these amazing products!

Preval
Re-Grip

Various Samples
Most of our products are available to purchase in sample sizes, allowing you and your customer to get familiar with the products and how they work. Particularly useful with VIVID™ Acid Stains and the various sealers. Finished samples also available.

Training and Support

Corporate Training and Support
Our expertise is not only in making the products, but in their installation. Our training seminars are held every quarter, and are inclusive of all aspects of coating installation, marketing and sales. We will show you what it takes to prepare a surface, install the coating and maintain it to provide years of trouble-free service. We have one of the most comprehensive training courses in the country, and teach virtually all aspects to the potential installer.

We can also coordinate an on-site demonstration with your sales people. Contact your sales representative for more information.
